Subject: Recognition Award

Dear Mr. Scott Hamilton,

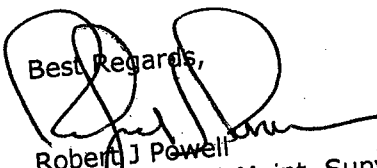

In recognition of your astute awareness on the morning of May 12, 2006, you and Mr. Benito Lee spotted a fire at the CCR and called and directed the proper personnel to extinguish a fire on the CCR Structure. This awareness of the surroundings and understanding the procedures and acted with in the guidelines of Chevron El Segundo fire and safety procedures preventing a situation from spreading.

We here at Chevron El Segundo wanted to say personally that we are proud to have craftsmen as yourself and Mr. Lee working within our community, who have taken upon themselves to be an integral part of our Chevron community.

Personally from myself, I want to say thank-you for your awareness, and to be apart of the ISOMAX R-540 Turnaround. I realize that this turnaround will not and have never been successful with out men and women like yourselves and your total involvement in our safety program and our community of helping one another.

So on behave of the Management Team here at Chevron El Segundo want to extend our gratitude and this small token of our appreciation; I am please to extend to you a \$25.00 gift card from Home Depot. Once again thank-you!

Best Regards,

Robert J Powell
