

Maintenance Services

Safe effective efficient solutions

For over three decades, TIMEC has provided maintenance services in North America and has consistently lowered its clients' total cost of ownership by using a combination of multi-skilled workforce and field-tested methodologies. Averaging 6 million man-hours per year with a TRIR within the top one percent of the industry, TIMEC and its clients build enduring working relationships based on aligned cultures and a focus on continuous improvement.

▶ Portfolio of Maintenance Services

- ▶ Leading provider of daily maintenance services at over 20 industrial facilities
- ▶ Human Resources systems and nationwide resource base that can provide skilled personnel on short notice
- ▶ Operational systems and processes that have a proven ability to lower clients' total costs

▶ Unparalleled Performance and Results

- ▶ TIMEC regularly delivers ready-to-work personnel with less than a two-hour notice to respond to plant emergencies. Our personnel base ranges from highly proficient welders and instrumentation and electrical technicians to day laborers.
- ▶ TIMEC's efficiency consistently saves clients money, with some instances registering more than \$2.9 million in direct labor costs savings through optimal crew mixes and cross-trained craft personnel, and \$500,000 in avoided maintenance costs.
- ▶ As part of its maintenance work process, TIMEC's on-site management works closely with clients' operations staff, maintenance planners and turnaround specialists to jointly predict and minimize potential failures, optimize planning and staffing, and improve operational efficiencies. This aligned approach significantly reduces clients' total costs.

Regardless of a particular site's resource and cultural requirements, TIMEC has the breadth and depth of people, systems and experience to achieve successful maintenance program results.

Major clients include: BP, Chevron, ExxonMobil, ConocoPhillips, The Dow Chemical Company, Shell, Tesoro and Valero.

Preferred supplier of maintenance solutions

By utilizing well-trained, safety-conscious personnel, TIMEC consistently delivers the safest, highest-quality and most cost-efficient services available. TIMEC relies on its field-proven work processes and its planning and management expertise.
